Dowdens Pumping and Water Treatment have been supplying, installing, servicing and maintaining pumping, pool and water treatment equipment for over 45 years. As a locally owned and operated business, we have the capabilities and expertise to provide our customers with purpose engineered solutions and results.

We pride ourselves on our company values, culture and promote a lifestyle balance that supports you to manage your career and ambitions on one hand; and your health, happiness, leisure and family on the other.

This is a fantastic opportunity for an enthusiastic self-motivated individual to enhance their skills and knowledge working with a professional team on a wide range of water and sewage treatment equipment, water softeners, filtration systems and RPZ apparatus.

Candidates will require the ability to:

- Install, commission and repair water treatment and sewage treatment plants
- Maintain and service oil / water separators, water treatment and sewage treatment plants
- Install, repair and maintain water softeners and filtration equipment
- Complete service reports – written and electronically
- Have initiative, the ability work independently and within a team
- Communicate effectively and have strong attention to detail
- Adhere to strict safety standards, follow corporate work procedures and policies
- Work away from home as required on occasion.

To be eligible for this position, candidates must:

- Have a current Plumber and Drainer Licence
- Have post trade plumbing experience in similar role / industry
- Hold a current manual Driver's License (MR Licence an advantage)
- Be willing to undertake a pre-employment medical, including drug and alcohol
- Be legally permitted to work in Australia
- Supply own hand tools

The following experience and current competencies / qualifications are an advantage:

- Certificate II or III in Water Operations
- Backflow Prevention and On-site Sewage Facility plumbing endorsements
- Gas Chlorination
- Pump repair, maintenance and water softener filter knowledge and experience
- Qld Construction Industry Card (White Card)
- Current Poly Welding / Confined Space / Work at Heights qualifications
- Coal Board Medical

- Standard 11 Generics and Mine site inductions
- Machine operation experience (excavator, skid steer and front end loader etc.)

Only short listed candidates will be contacted and must be willing to undertake a pre-employment medical, including drug and alcohol.
